## Enterprise Resource Planning (ERP) Integration

We use standard integration utility which can be used for integration of Indian Taxation modules with any ERP using XML data imports. We maintain uniform format with every ERP integration, so that future statutory updates can be delivered as fast as possible since updates are the crucial aspect of any statutory software. Our I-Tax solutions are typically deployed within 30 days for an enterprise wide implementation or within 10 days for a smaller scale implementation and ERP is delivered within 3 months.

Our enterprise applications integration practice possesses expertise in Integration of Indian Taxation modules with ERP and support on all leading ERP. Our key offerings are: Excise Modules, Service Tax Module, VAT Modules, TDS Modules, process re-engineering, product configuration, development of reports and new functionality integration with other applications and testing version upgrade, data migration maintenance and support along with technical help desk.

### Benefits of ERP Integration:

- ALL Statutory documents with no data entry
- Maintain data integrity with respect to ERP
- Uninterrupted working in presence of Excise, TDS, Service Tax, VAT and CST statutory changes
- Affordable & Fastest Solution compared to ERP Customized local solution development
